## **SECTION B – INTRODUCTION**

### **B.1 BPA USE AND INTENT**

B.1.1 The intent of this solicitation is to obtain the services described in D.1 Scope of Agreement for Local, Regional, and Nationwide fire suppression and all-hazard incidents. The primary location for assignments shall be in the Northern Rockies Geographic Area. See link for map.  
<https://gacc.nifc.gov/nrcc/about/dispzones.htm>

B.1.2 The Blanket Purchase Agreements resulting from this Request for Quote (RFQ) may be used by multiple State and Federal wildland fire agencies.

### **B.2 PRICING AND ESTIMATED QUANTITY**

B.2.1 This solicitation will result in multiple agreements. The estimated value of each individual agreement is \$450,000. The dollar limitation for any individual BPA Call is \$150,000.00. Since the needs of the Government and availability of Contractor's resources during an emergency cannot be determined in advance, it is mutually agreed that, upon request of the Government, the Contractor shall furnish the resources listed herein to the extent the Contractor is willing and able at the time of order. Due to the sporadic occurrence of Incident activity, the placement of any orders IS NOT GUARANTEED.

B.2.2 Proposed rates shall include, but are not limited to, labor (as required), equipment, operating supplies, materials, State and Federal taxes (including workers' compensation costs), insurance coverage, transportation costs, overhead, and profit, and any costs/fees necessary to ensure equipment/operators/crews meet(s) the specified standards. As required by the agreement, any costs associated with a contractor provided support truck for fuel, maintenance, and operator transportation; delivery/setup/takedown, mobilization/demobilization, power generation, and a Contractor's representative attendance at the operational period briefings should also be included. Contractors shall comply with the 2:1 work/rest ratio as outlined in the Interagency Incident Business Management Handbook (12.7-1 Work/Rest Guidelines). When working an average of more than 16 hours, for the duration of the incident, a Contractor may request to negotiate an equitable adjustment through the Procurement Unit Leader or Contracting Officer. Shifts exceeding 16 hours shall be approved by the Incident Commander.

B.2.3 Resources furnished under this agreement may be operated and subjected to extreme environmental and/or strenuous operating conditions which could include but is not limited to unimproved roads, steep, rocky, hilly terrain, dust, heat, and smoky conditions. As a result, by entering into this agreement, the contractor agrees that what is considered wear and tear under this agreement is in excess of what the resource is subjected to under normal operations and is reflected in the rates paid for the resource.

### **B.3 BASIS OF AWARD**

B.3.1 The Government intends to award multiple Agreements, however, awards will only be made to those quoters offering a reasonable price and resources that are technically acceptable. Proposed pricing for ALL line items will be evaluated for reasonableness. Reasonable price technically acceptable will be the basis for the best value determination.

B.3.2 Nationally only one award will be made for a resource within each category and/or type. The Contractor may choose to respond to solicitations from multiple geographic areas; but upon acceptance of an offer of award, all other offers for that resource category and/or type will be ineligible for award. Prospective offerors are cautioned to carefully consider the solicitations to which they respond.

B.3.3 The following factors shall be used to evaluate quotes:

1. Operational acceptability of equipment/resource offered to meet the Government requirement;
2. Price reasonableness;
3. Past performance dependability risk.

B.3.3.1 A quote will be considered operationally acceptable if the offered resource meets the minimum requirements stated in the specifications.

B.3.3.2 Price reasonableness may be based upon competition, government estimates, commercial pricing, historical data, etc.; generally reasonable pricing that is low will result in higher dispatch priority.

B.3.3.3 Past performance dependability risk will be assessed by high, low or unknown (high indicating significant probability for poor future performance) based upon customer satisfaction as reflected in evaluations received for the quoter on incidents and other related experience within the past 36 months, compliance with Federal, state, and local laws and regulations, and quoter's history of reasonable and cooperative behavior. Pursuant to FAR 42.1501 the contractor's record of integrity and business ethics and generally, the contractor's business-like concern for the interest of the customer will be a consideration of past performance.

B.4 BPAs will be awarded only to quoters with:

1. reasonably priced resources
2. operationally acceptable resources
3. a low or unknown performance risk

B.4.1 A notice of award will be electronically mailed to the vendors email address as provided in VIPR.

## B.5 SOCIOECONOMIC STATUS APPLICABLE TO DPL RANKING

B.5.1 Multiple awards resulting from this solicitation will be made on a competitive basis to responsible small business concerns.

B.5.2 Priority ranking for dispatch will be determined by applying a 5% advantage (to the method described in D.6.2) for each socioeconomic category (other than small business) checked in Block 10 of the SF-1449. A vendor meeting multiple targeted socioeconomic categories will receive multiple percentage points with a cap of 10%; for example if HUBZone, Service-Disabled veteran Owned, and 8(a) are all checked in Block 10 and a vendor qualified as all three his advantage will be 10% for purposes for Dispatch Priority List placement.

In addition, a Contracting Officer may allow the Contractor to change their Host Dispatch Center and/or Equipment Attributes.

**Note:** allowable equipment changes will not include the addition of new resources and will not result in a change in equipment typing.

It is estimated that the anticipated use will be within the Northern Rockies Geographic area and may fall between April 1, 2017 through October 31, 2020. Potential use outside this area or anticipated use period could occur at any time. Since the resource needs of the Government and availability of Contractor's resources during an emergency cannot be determined in advance, it is mutually agreed that, upon request of the Government, the Contractor shall furnish the resources listed herein to the extent the Contractor is willing and able at the time of order.

When contract resources are unavailable, the resources will not be eligible for dispatch under the Agreement.

#### **D.6 ORDERING PROTOCOL FOR RESOURCES**

This Agreement does not preclude the Government from using any Agency or Agency Cooperator owned resources before equipment is mobilized under this Agreement.

The Contractor shall restrict calls to the host dispatch center. Dispatchers will not provide information, such as "when or if a Contractor will be called for an assignment" or "status of other contractors."

##### **D.6.1 DISPATCH PRIORITY**

Each host dispatch center will give dispatch priority to the resource offering the greatest advantage (See D.6.2) before all other private resources not under Agreement with the following exceptions:

- a. For initial attack, dispatchers will follow the “closest forces” concept and utilize locally available resources according to agency and incident needs. The priority dispatch ranking may not be used during initial attack and Contractor resources may or may not be used.
- b. Tribal preference policy established within reservation jurisdiction.
- c. Government normally will dispatch resources in accordance with this protocol; however, the number of fire orders in process and actual fire conditions at the time of dispatch may require a deviation from normal procedures in order to respond effectively to such conditions. The price will be based on the daily rate offered, with the lowest price being ranked highest on the dispatch list.

### **D.6.2.1 Tied Prices/CBA Scores**

The following methodology will be used to break ties that result when determining the ranking for the dispatch priority list. Preference will be given to those small businesses that are also labor surplus area (LSA) concerns. Any ties remaining among LSA concerns will be resolved using programmatically driven random ranking within the VIPR system. This functionality will also be used to resolve any ties that occur among non-LSA concerns.

## **D.6.3 ORDERING PROCEDURES FOR RESOURCES**

**D.6.3.1** Following Agreement award, each host dispatch center will have an established dispatch priority list showing the resources located within the selection made at D.6.2. The Government intends to dispatch contractor resources based on this priority ranking for other than initial attack.

**D.6.3.2** If all contractor resources on the dispatch priority list are depleted within the selection made at D.6.2, orders will be placed utilizing established dispatch procedures.

## IIBMH – Interagency Incident Business Management Handbook

### IPT – Iron Pipe Thread

**INCIDENT** – An occurrence or event, either human-caused or natural phenomena, that requires action by emergency service personnel to prevent or minimize loss of life or damage to property and/or natural resources.

**INITIAL ATTACK** – A planned response to a wildfire given the wildfire’s potential fire behavior. The objective of initial attack is to stop the spread of the wildfire and suppress it at least cost. An aggressive suppression action that is consistent with firefighter and public safety.

**LOW GROUND PRESSURE EQUIPMENT**– Equipment with wide pads, designed by the manufacturer to operate in wet, soft or sandy terrain.

### NH – National Hose Thread

### NPSH – National Pipe Standard Hose

**ON SHIFT** – Includes time worked, time that equipment is held or directed to be in a state of readiness, and compensable travel (equipment traveling under its own power) that has a specific start and ending time.

**OPERATING SUPPLIES** – Operating supplies include fuel, oil, filters, lube/oil changes. Even though the agreement may specify that all operating supplies are to be furnished by the Contractor (*wet*), the Government may, at its option, elect to furnish such supplies when necessary to keep the equipment operating. The cost of such supplies will be deducted from payment to the Contractor.

**OPERATIONAL PERIOD** – The period of time scheduled for execution of a given set of tactical actions, which may be specified in the Incident Action Plan. An operational period is equal to one shift and can be of various lengths.

**ORDINARY WEAR AND TEAR** – Equipment furnished under this agreement may be operated and subjected to extreme environmental and/or strenuous operating conditions which could include but is not limited to unimproved roads, steep, rocky, hilly terrain, dust, heat, and smoky conditions. As a result, by entering into this agreement, the contractor agrees that what is considered wear and tear under this agreement is in excess of what the equipment is subjected to under normal operations and is reflected in the rates paid for the equipment.

**POINT OF HIRE** – The point of hire is the resource location (City and State) the vendor designates in their offer.

**POINT OF RELEASE** – The location from which a contractor is released upon expiration or termination of required services. This point may be the same as the point of hire.

### PROPERTY –

- **Accountable Property.** Items with a purchase price of \$5,000 (USDA, USDI) or more, or items that the incident agency considers sensitive, such as cameras, computers,

chainsaws, and radios, are accountable and are marked with an agency identification number.

- **Durable Property.** Durable properties are those non-accountable items that have a useful life expectancy greater than one incident (e.g., sleeping bags, water handling accessories, tents, headlamps, tools). This property may be marked with paint or etching to show "US GOVT", or an agency specific marking.
- **Consumable Goods.** Consumable goods are items normally expected to be consumed on the incident (e.g., batteries, Meals Ready to Eat, plastic canteens, petroleum products). This property is not marked.

**RESOURCE** – Equipment, personnel, supplies, or a service used to support incidents.

**RON** – Remain Over Night

**ROSS** – Resource Ordering and Status System

**SAM** – System for Award Management. SAM is the Official U.S. Government system that consolidated the capabilities of CCR/FedReg, ORCA, and EPLS.

**SEVERITY** – The class of assignments that are related to pre-suppression activities. Examples of appropriate severity activities may include but not limited to standby at the host unit, limited patrol, tool sharpening, or other activities that do not unduly interfere with fire readiness and a 10 minute mobilization response time. Increase the level of pre-suppression capability and fire preparedness when predicted or actual burning conditions exceed those normally expected, due to severe weather conditions.

**SJRL** – Synthetic Jacket Rubber Lined Hose

**SKIDGINE, DROP TANK (AKA DETACHABLE TANK)** - A Skidgine with a water tank that has been engineered to be able to be removed from the parent machine and re-attached to the parent machine in one (1) hour or less. The parent machine must have a log grapple that is usable to pull logs or break apart jackpots of fuel when the tank is removed. Winch equipped Skidgines are excluded from this definition.

**SOFTTRACK** – A machine constructed to carry water, mounted on a carrier, equipped with a track that is able to conform to varying ground conditions by torsion bar mounted road wheels. These road wheels allow the track to travel up and down to keep the track surface in constant contact with the ground over rough surfaces. These machines can travel at a speed of over 12 miles per hour on flat surfaces.

**SUPPRESSION** – All the work of extinguishing or confining a fire beginning with its discovery.

**SUSPENSION** –

- **Air Bag** – A suspension designed with two (2) air bags per wheel or four (4) air bags per axle. Air bag suspensions were developed for over the road conditions. While this suspension is acceptable, the process where the air bags inflate and deflate to try and maintain an even ride is not as desirable due to the non-static load associated with a tank of water.
- **Vocational Duty** – All other axle configurations including the walking beam, spring, and trailing arm with two (2) air bags per axle shall be identified as vocational style suspension. Must be equipped with a tandem axle interlock (power divider).

UNDER HIRE – Refer to D.21.8

WHEEL CHOCKS –

- Type 5 and 6 Engines shall be equipped with a wheel chock constructed with a height of 8” or more and a width of 6” or more.
- Type 3 and 4 Engines and ALL Tenders shall be equipped with a wheel chock constructed with a height of 8” or more and width of 7” or more.
- Wheel chock must have a solid bottom or ribbing on the bottom to prevent from sinking in soft soil.
- Wheel chock must have the face beveled at a 30-50 degree angle. Wheel chock base must be 1.4 times the height or greater.
- Or the manufacturer specifies the chocks meet SAE J-348, NFPA 1901, or NFPA 1906 for the size of the vehicle.

WORK/REST – Refer to D.6.7

## **EXHIBIT C - HARASSMENT FREE WORKPLACE POLICY**

**POLICY:** The National policy states: The Forest Service will not tolerate harassment based on race, national origin, religion, age, mental or physical disability, color, sex, or any other non- merit factors.

The Forest Service strives for a harassment-free work environment where people treat one another with respect. Managers, supervisors, and all employees, as well as our contractors, cooperators and volunteers have the primary responsibility for creating and sustaining this harassment-free environment (by example, by job supervision, by coaching, by training, by contract enforcement, and by other means). All employees, contractor personnel, and visitors must take personal responsibility for maintaining conduct that is professional and supportive of this environment.

**ACTION REQUIRED:** Managers and supervisors must take immediate action to stop harassment (or any other inappropriate behavior), to protect the people targeted and to take all reasonable steps to ensure that no further harassment or retaliation occurs. Employees who witness harassment should report it to the proper authority.

**LOCATIONS COVERED:** The contractors work environment covers any area where employees work or where work-related activities occur including travel. This includes field sites, incident bases, staging areas, firelines, government buildings and other facilities such as fitness centers and campgrounds. Also included are vehicles or other conveyances used for travel.

**WHAT HARASSMENT IS:** Harassment is coercive or repeated, unsolicited and unwelcome verbal comments, gestures or physical contacts and includes retaliation for confronting or reporting harassment. Examples of harassment include, but are not limited to, the following:

Physical conduct: Unwelcome touching, standing too close, inappropriate or threatening staring or glaring, obscene, threatening, or offensive gestures.

Verbal or written conduct: Inappropriate references to body parts, derogatory or demeaning comments, jokes, or personal questions; sexual innuendoes; offensive remarks about race, gender, religion, age, ethnicity, sexual orientation, political beliefs, marital status, or disability; obscene letters or telephone calls; catcalls; whistles; sexually suggestive sounds; loud, aggressive, inappropriate comments or other verbal abuse.

Visual, Graphic or Pictorial Displays: Display of nude pictures, scantily-clad, or offensively-clad people; display of intimidating or offensive religious, political, or other symbols; display of offensive, threatening, demeaning, or derogatory drawings, cartoons, or other graphics; offensive T-shirts, coffee mugs, bumper stickers in locations covered above or other articles.

Individuals who believe they are being harassed or retaliated against should exercise any one or more of the following options as soon as possible:

Tell the harasser to stop the offensive conduct; and/or Tell a manager or supervisor about the conduct; and/or Contact your Procurement Unit Leader, Contracting Officer, a special Emphasis Program Manager, or any other individual you trust who would take action.

In addition, you may seek help from the Human Resource Specialist on the incident.

#### **\*\* UNIFORM ALLOWANCE \*\***

If employees are required to wear uniforms in the performance of this contract (either by the terms of the Government contract, by the employer, by the state or local law, etc.), the cost of furnishing such uniforms and maintaining (by laundering or dry cleaning) such uniforms is an expense that may not be borne by an employee where such cost reduces the hourly rate below that required by the wage determination. The Department of Labor will accept payment in accordance with the following standards as compliance:

The contractor or subcontractor is required to furnish all employees with an adequate number of uniforms without cost or to reimburse employees for the actual cost of the uniforms. In addition, where uniform cleaning and maintenance is made the responsibility of the employee, all contractors and subcontractors subject to this wage determination shall (in the absence of a bona fide collective bargaining agreement providing for a different amount, or the furnishing of contrary affirmative proof as to the actual cost), reimburse all employees for such cleaning and maintenance at a rate of \$3.35 per week (or \$.67 cents per day). However, in those instances where the uniforms furnished are made of "wash and wear" materials, may be routinely washed and dried with other personal garments, and do not require any special treatment such as dry cleaning, daily washing, or commercial laundering in order to meet the cleanliness or appearance standards set by the terms of the Government contract, by the contractor, by law, or by the nature of the work, there is no requirement that employees be reimbursed for uniform maintenance costs.

The duties of employees under job titles listed are those described in the "Service Contract Act Directory of Occupations", Fifth Edition (Revision 1), dated September 2014, unless otherwise indicated.

#### **REQUEST FOR AUTHORIZATION OF ADDITIONAL CLASSIFICATION AND WAGE RATE**

##### **Standard Form 1444 (SF-1444) Conformance**

###### **Process:**

The contracting officer shall require that any class of service employee which is not listed herein and which is to be employed under the contract (i.e., the work to be performed is not performed by any classification listed in the wage determination), be classified by the contractor so as to provide a reasonable relationship (i.e., appropriate level of skill comparison) between such unlisted classifications and the classifications listed in the wage determination. Such conformed classes of employees shall be paid the monetary wages and furnished the fringe benefits as are determined (See 29 CFR 4.6 (b)(2)(i)). Such conforming procedure shall be initiated by the contractor prior to the performance of contract work by such unlisted class(es) of employees (See 29 CFR 4.6(b)(2)(ii)). The Wage and Hour Division shall make a final determination of conformed classification, wage rate, and/or fringe benefits which shall be retroactive to the commencement date of the contract (See 29 CFR 4.6(b)(2)(iv)(C)(vi)). When multiple wage determinations are included in a contract, a separate SF- 1444 should be prepared for each wage determination to which a class(es) is to be conformed.

The process for preparing a conformance request is as follows:

- 1) When preparing the bid, the contractor identifies the need for a conformed occupation(s) and computes a proposed rate (s).
- 2) After contract award, the contractor prepares a written report listing in order the proposed classification title(s), a Federal grade equivalency (FGE) for each proposed classification(s), job description(s), and rationale for proposed wage rate(s), including information regarding the agreement or disagreement of the authorized representative of the employees involved, or where there is no authorized representative, the employees themselves. This report should be submitted to the contracting officer no later than 30 days after such unlisted class(es) of employees performs any contract work.
- 3) The contracting officer reviews the proposed action and promptly submits a report of the action, together with the agency's recommendations and pertinent information including the position of the contractor and the employees, to the Wage and Hour Division, U.S. Department of Labor, for review (See 29 CFR 4.6(b)(2)(ii)).
- 4) Within 30 days of receipt, the Wage and Hour Division approves, modifies, or disapproves the action via transmittal to the agency contracting officer, or notifies the contracting officer that additional time will be required to process the request.
- 5) The contracting officer transmits the Wage and Hour decision to the contractor.
- 6) The contractor informs the affected employees.

Information required by the Regulations must be submitted on SF-1444 or bond paper.

When preparing a conformance request, the "Service Contract Act Directory of Occupations" (the Directory) should be used to compare job definitions to ensure that duties requested are not performed by a classification already listed in the wage determination. Remember, it is not the job title, but the required tasks that determine whether a class is included in an established wage determination. Conformances may not be used to artificially split, combine, or subdivide classifications listed in the wage determination.

## **RATING GUIDELINES**

### **Quality of Product or Service; Timeliness of Performance; and Business Relations**

**0 = Unsatisfactory    1 = Marginal    2 = Satisfactory    3 = Very Good    4 = Exceptional**

Unsatisfactory	<p>Performance does not meet most contractual requirements and recovery is not likely in a timely manner. The contractual performance of the element or sub-element contains a serious problem(s) for which the contractor's corrective actions appear or were ineffective.</p> <p>NOTE: To justify an Unsatisfactory rating, identify multiple significant events in each category that the contractor had trouble overcoming and state how it impacted the Government. A singular problem, however, could be of such serious magnitude that it alone constitutes an unsatisfactory rating. An Unsatisfactory rating should be supported by referencing the management tools used to notify the contractor of the contractual deficiencies (e.g., management, quality, safety, or environmental deficiency reports, or letters).</p>
Marginal	<p>Performance does not meet some contractual requirements. The contractual performance of the element or sub-element being assessed reflects a serious problem for which the contractor has not yet identified corrective actions. The contractor's proposed actions appear only marginally effective or were not fully implemented.</p> <p>NOTE: To justify Marginal performance, identify a significant event in each category that the contractor had trouble overcoming and state how it impacted the Government. A Marginal rating should be supported by referencing the management tool that notified the contractor of the contractual deficiency (e.g., management, quality, safety, or environmental deficiency reports, or letters).</p>
Satisfactory	<p>Performance meets contractual requirements. The contractual performance of the element or sub-element contains some minor problems for which corrective actions taken by the contractor appear or were satisfactory.</p> <p>NOTE: To justify a Satisfactory rating, there should have been only minor problems, or major problems the contractor recovered from without impact to the contract. There should have been NO significant weaknesses identified. A fundamental principle of assigning ratings is that contractors will not be assessed a rating lower than Satisfactory solely for not performing beyond the requirements of the contract.</p>
Very Good	<p>Performance meets contractual requirements and exceeds some to the Government's benefit. The contractual performance of the element or sub-element being assessed was accomplished with some minor problems for which corrective actions taken by the contractor was effective.</p> <p>NOTE: To justify a Very Good rating, identify a significant event and state how it was a benefit to the Government. There should have been no significant weaknesses identified.</p>
Exceptional	<p>Performance meets contractual requirements and exceeds many to the Government's benefit. The contractual performance of the element or sub-element being assessed was accomplished with few minor problems for which corrective actions taken by the contractor was highly effective.</p> <p>NOTE: To justify an Exceptional rating, identify multiple significant events and state how they were of benefit to the Government. A singular benefit, however, could be of such magnitude that it alone constitutes an Exceptional rating. Also, there should have been NO significant weaknesses identified.</p>

**ACCESS AND RETENTION OF RECORDS:** Contractor agrees to provide the department, Legislative Auditor, or their authorized agents, access to any records necessary to determine contract compliance. (Section 18-1-118, MCA). Contractor agrees to create and retain records supporting the services rendered or supplies delivered for a period of eight years after either the completion date of the contract or the conclusion of any claim, litigation, or exception relating to the contract taken by the State of Montana or third party.

**ALTERATION OF SOLICITATION DOCUMENT:** In the event of inconsistencies or contradictions between language contained in the State's solicitation document and a vendor's response, the language contained in the State's original solicitation document will prevail. Intentional manipulation and/or alteration of solicitation document language will result in the vendor's disqualification and possible debarment.

**ASSIGNMENT, TRANSFER AND SUBCONTRACTING:** Contractor shall not assign, transfer or subcontract any portion of the contract without the express written consent of the department. (Section 18-4-141, MCA.)

**COMPLIANCE WITH LAWS:** Contractor shall, in performance of work under this contract, fully comply with all applicable federal, state, or local laws, rules, and regulations, including but not limited to, the Montana Human Rights Act, the Equal Pay Act of 1963, the Civil Rights Act of 1964, the Age Discrimination Act of 1975, the Americans with Disabilities Act of 1990, and Section 504 of the Rehabilitation Act of 1973. The Contractor is the employer for the purpose of providing healthcare benefits and paying any applicable penalties, fees and taxes under the Patient Protection and Affordable Care Act [P.L. 111-148, 124 Stat. 119]. Any subletting or subcontracting by Contractor subjects subcontractors to the same provisions. In accordance with 49-3-207, MCA, Contractor agrees that the hiring of persons to perform this contract will be made on the basis of merit and qualifications and there will be no discrimination based upon race, color, religion, creed, political ideas, sex, age, marital status, physical or mental disability, or national origin by the persons performing this contract.

**DEBARMENT:** Contractor certifies, by submitting this bid, that neither it nor its principals are presently debarred, suspended, proposed for debarment, declared ineligible, or voluntarily excluded from participation in this transaction (contract) by any governmental department or agency. If Contractor cannot certify this statement, attach a written explanation for review by the State.
